Shipping cost should be subtracted from the resale value to calculate the net scrap value

Negative net scrap value means that cost of shipping the asset to scrap dealer is more than scrap value.

Reselling option should be considered for those products

RESELLING OR SCRAPPING

Inputs

1- Please Choose Product Category

This page is designed for helping decision makers about the assets on hand. **Brick Construction** has a big list of assets and scrap dealers that the company worked with previously. Please choose the *product category* and the *product key*, and see best option for each product below

-RESELL-

Because reselling price is more than net scrap value

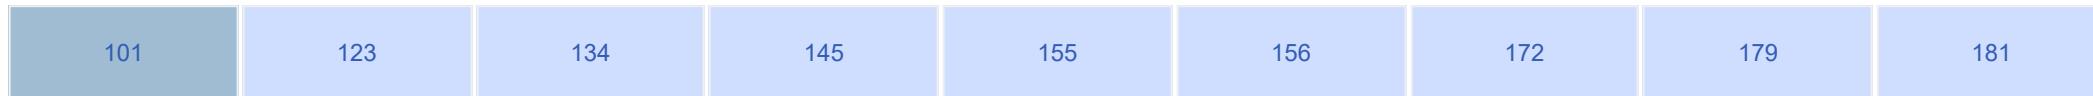

Rusty Metal
